WassUpp / IAM - Public Proof of Creation (Published)

WassUpp / IAM - Public Proof of Creation (Published)

Author: Julien Jakubowski

Email: julien.jakubowski.vn@gmail.com

Date of Original Creation: May 25, 2025

This document serves as an official public timestamp and proof of authorship of the original concept known as 'WassUpp' and its integrated AI system 'IAM'.

Created and authored by Julien Jakubowski, WassUpp is a voice-first AI companion mobile application where users are assigned a unique AI voice named IAM. IAM forms an emotional, consistent, and persistent relationship with its user, remembering past conversations, preferences, and emotional states. The system is designed to simulate a lifelong connection with a digital voice companion.

This publication includes:

- Authorship by Julien Jakubowski
- Complete concept overview
- Registered domain names: wassupp.app, wassupp.us, wassupp.net
- Trademark classes and legal intent
- Acknowledgment of original voice, logic, and persistent identity design

This document is publicly released as an unalterable record of origin. Any unauthorized claim,

duplication, or misappropriation of the concept described within may be subject to legal action.

This timestamp is final, official, and serves as a declaration of intellectual ownership.
